

Re: Humanitarian Assistance to the People of the Gaza Strip

[REDACTED]
[REDACTED]

Qatar works through the Qatari Gaza Reconstruction Committee and its chairman ALEMADI in an ongoing fashion to assist in the reconstruction of the Gaza Strip by providing financial support to the people of Gaza and by leading civilian and infrastructure projects, in electricity, residential areas, civilian infrastructure, medicine and support for the population.

This humanitarian assistance has continued throughout the coronavirus crisis. It has been vital and has improved the humanitarian situation in Gaza during this complicated time. Despite the many challenges involved in transferring the assistance, the cooperation and coordination between our countries has ensured that it continues to reach the people of Gaza.

This cooperation, through the agreed-upon mechanisms, has led to a steady improvement in the humanitarian situation in the Gaza Strip.

We reiterate the importance of continuing to transfer the Qatari humanitarian financial assistance through the existing mechanism, i.e. the ambassador ALEMADI and the Qatar Committee for the Reconstruction of Gaza, in order to maintain the aforementioned excellent achievements.

We ask that Qatar's financial assistance not be transferred through mediators or countries other than the ambassador, Mohammed ALEMADI.

We greatly appreciate your cooperation and open discourse to safeguard stability and security in the region and to bring our countries and peoples closer together.

Sincerely yours,

R. L. Mador
